Flags

Alternating two logos on both sides with blank flags(s)*

* Printing on both sides of the flag is possible for 1-colour logos only.

SIDE B

SIDE A

*I would like to have more than 1 blank flag between logos

Flags

What's a logo in vector format?

We're glad you asked!
To ensure workability and quality, we need a logo that is in a vector format and not in image format. See type of file for hints.

Image files names end in .jpeg .png

		Type	
🖼 My logo	2020-01-08 12:19	JPG	✖
🖼 My logo	2020-01-08 12:19	PNG	

Vector files names end in .ai, .eps, .pdf

		Type	
My logo.ai	2020-01-08 12:30	Adobe Illustrator	✔
My logo.eps	2020-01-08 12:30	EPS	
My logo.pdf	2020-01-08 12:31	Adobe Acrobat Document	

*Opening an image file and saving it into a vector format or changing the name does not transform the logo into a vector.

Thank you :)
**Don't forget to review and save the document to keep your selection**
